The professional integration of desktop firewalls in 19-inch server racks

Improve the agility of your IT infrastructure with the device-friendly integration of the investment-intensive appliances using the Firewall Kits from racknex.

NM-LAN-201 is the Firewall Kit from computer component specialist racknex for the perfect integration of your valuable desktop appliances in the 19-inch server rack.

With the Firewall Kits you increase the life cycle of your hardware and bring more agility into your IT organisation besides the technical improvement.

Rack mount kits from racknex merge technical optimisation and homogeneous design for many areas in 19-inch server racks on just a few rack units.

When ordering in the online shop, the design and number of cables as well as the design of the plug connections can be selected individually.
