More performance and universal individuality for rack servers and NAS storage in 19 inch server cabinets

Up to 24 individual connectors allow a wide range of possible uses for different functional requirements in your IT structure.

UM-SRV-001 is the **Server-NAS Kit** from the computer component specialist **racknex** which optimizes the controls and connections of system-based devices in the 19-inch server rack, giving your IT organization more agility and security when working with the investment-intensive appliances.

Rack mount kits from racknex merge technical optimisation and homogeneous design for many areas in 19-inch server racks on just a few rack units.

When ordering in the online shop, the design and number of cables as well as the design of the plug connections can be selected individually.
