The professional integration of desktop firewalls in 10-inch server racks

Improve the agility of your IT infrastructure with the device-friendly integration of the investment-intensive appliances using the Firewall Kits from racknex.

NM-KCB-303 is the **Firewall Kit** from computer component specialist **racknex** for the perfect integration of your valuable desktop appliances in the 10-inch server rack.

With the **Firewall Kits** you increase the life cycle of your hardware and bring more agility into your IT organisation besides the technical improvement.

Rack mount kits from **racknex** merge technical optimisation and homogeneous design for many areas in 10-inch server racks on just a few rack units.

When ordering in the online shop, the design and number of cables as well as the design of the plug connections can be selected individually.
